Moaaz Akram

CLIENT DELIVERY & OPERATIONS

Cairo, Egypt | +20 100 269 2998 | mo3z.alhajj@gmail.com | LinkedIn | Portfolio

CAREER / MOAAZ AKRAM

PROFILE

I turn unclear requests into practical next steps, investigate product issues and help teams keep delivery moving.

My experience connects customer operations, AI-assisted 3D production and hands-on workflow building. I have worked across different fields, including freelance work, since 2016.

EXPERIENCE

STORYTELLER

Jul 2026 - present

Client Delivery Operations

- Help clarify delivery requests, check product behaviour and document findings, blockers and next steps for the teams involved.
- Use AI-assisted research and technical investigation to make product knowledge and operational checks easier to act on.

FUTUREVERSION

Jun - Sep 2026

Co-founder & COO

- Co-founded an early-stage AI and automation venture.

KAEDIM

Nov 2025 - Feb 2026

Production Manager (contract)

- Coordinated briefs, artists, priorities and reviews across AI-assisted 3D production, helping the teams involved work through dependencies and asset feedback.

PREPLY

Feb - Dec 2025

Customer Support Specialist

- Handled customer support and helped connect colleagues and points of contact so issues could be acted on.
- Built a NotebookLM knowledge base, GPT support assistant and Intercom categorisation workflow. The support team used the knowledge base and assistant first, then the Intercom workflow.

ONEPILOT

Sep - Dec 2025

KYC Officer (freelance)

- Reviewed KYC submissions, flagged cases needing additional checks and maintained verification records.

AMAZON

May 2022 - Apr 2025

Account Specialist / Customer Service Representative

- Worked in customer service before moving into account support, investigating issues and guiding customers through next steps.
- Helped a visually impaired customer update a payment method, following the same steps on my own computer; the interaction was recognised in a First Smile story.

EDUCATION

Future University in Egypt 2018 - 2023

Computer science studies; later major in Digital Media Technology.

STRENGTHS

Client communication · Cross-functional coordination · Product investigation · Knowledge management · Workflow design · Practical AI
